PROFESSIONAL SUMMARY

BSIT student and aspiring software developer with project experience in web-based systems, database-driven applications, and AI-assisted information tools. Also experienced in remote bookkeeping, virtual assistance, and short-form AI video production. Familiar with PHP, MySQL, HTML, CSS, JavaScript, spreadsheet workflows, Zoho Books, and digital content tools. Brings an organized, detail-oriented approach to technical projects and client support.

TECHNICAL SKILLS

Software & Web Development: PHP, MySQL, SQL, HTML, CSS, JavaScript, Java, C
Systems, Data & Cybersecurity: Database design and tracking, web-based scheduling, spreadsheet organization, data entry, cybersecurity fundamentals, network security awareness, Cisco Packet Tracer
AI & Digital Content: Claude AI, Kling AI, Topview, HeyGen, Seedance, CapCut, Submagic
Business & Productivity Tools: Zoho Books, Microsoft Excel, Google Sheets, Google Workspace, Microsoft Office, Canva, Zoom
Administrative Support: Email management, social media scheduling, content calendars, document preparation

SELECTED PROJECTS

MediSync — AI-Assisted Rare Disease Information and Decision Support System
Capstone project

- Contributed to the development of an AI-assisted system focused on rare-disease information and decision support.
- Project features include an AI chatbot and a feedback feature for collecting user suggestions and experiences.
- Deployment and integration work included a web deployment workflow and Firebase-related configuration.

Smart Parking Guidance Availability System | *Team system project*

- Worked on a QR-accessible parking guidance concept that presents parking-slot availability.
- Demonstration flow includes PWD-related routing, slot selection, and availability updates based on sensor inputs.

Database Self-Schedule Tracking System | *Web development project*

- Developed a web-based scheduling system using PHP, MySQL, HTML, CSS, and JavaScript.

PROFESSIONAL EXPERIENCE

Bookkeeper | *Freelance / Remote — Rarelink* | February 2026 – April 2026

- Used Zoho Books to organize bookkeeping records for remote clients.
- Reviewed and categorized invoices, bank statements, and transactions using the Chart of Accounts.
- Prepared monthly Profit & Loss reports and expense summaries.
- Used Claude AI to help prepare client-friendly financial summaries and maintained organized records.

AI Video Creator & Editor | *Freelance / Projects — Ruben & Olives Toys* | February 2026 – Present

- Created short-form AI-generated videos using Kling, Topview, HeyGen, and Seedance.
- Edited videos in CapCut, including cuts, transitions, captions, music synchronization, and color grading.
- Added animated subtitles using Submagic and prepared UGC-style advertising content for social platforms.
- Supported TikTok content planning, posting, and basic audience engagement.

Virtual Assistant | *Freelance / Remote Clients — Death, Taxes, and Depreciation* | April 2026 – May 2026

- Organized spreadsheets for data tracking and workflow support.
- Prepared 30-day content calendars and scheduled social posts, including up to 30 tweets per day.
- Handled email management, data entry, administrative support, and content repurposing.

EDUCATION

Our Lady of Lourdes College | 2024 – Present
Bachelor of Science in Information Technology (BSIT)
Current GPA: 1.50 | Relevant coursework: Database Systems, Platform Technology, Networking, Event-Driven Programming, Information Security

CERTIFICATIONS
